Household Chemical Collection

- Do not smoke.
- Do not leave material in hot, unventilated areas for long periods.
- When possible, keep products in original container and ensure lids or caps are tight.
- Place items securely in boxes for transport.
- To prevent unfavorable chemical reactions, do not put multiple containers in bags or soft containers where they may spill or break.
- If you have a leaking container, place this item separately in a clear plastic bag, with newspaper or paper towels on the bottom. Secure in an upright position so it doesn't spill in your vehicle. Please notify staff that the item is leaking.
- MXI is the premiere service provider for household hazardous waste collection events sponsored by states, counties, and municipalities and provides disposal services at the VPPSA events. With a fleet of permitted vehicles, national network of terminals, staff of highly trained personnel, and a Materials Recovery Facility, MXI offers a full range of recycling and disposal services using the cutting edge of universal hazardous waste management technology.

Computer Recycling

- Since 2001, our contractor, Computer Recycling of Virginia, has erased every hard drive using software that meets or exceeds all industry standards, including the NIST 800-88. Once the wipe process is complete, any hard drive that fails the wipe process is physically destroyed.
- The mission of Computer Recycling of Virginia, Inc. (CRVA) is to place educationally-useful equipment into Virginia's schools and non-profit organizations free of charge, while promoting electronics recycling throughout Virginia.

At the collection:

- A VPPSA employee will ask which city or county you live in, and what materials you've brought. Proof of residency may be required.
- VPPSA staff will unload your vehicle. Please stay in your vehicle unless requested to do otherwise.
- There are separate drop off points for household chemicals and computers.
- Be prepared to identify your materials. If unsure, tell VPPSA staff before they begin unloading.

Thanks for your patience and cooperation.

Alternative Recycling and Disposal Sites
